The following are terms of participation in the Machine Translation Evaluation:

- On receiving the evaluation data (***May 9th, 2005***), the registered site will process the entire test set in accordance with the MT-05 Evaluation Plan, and return the system translation files to NIST by the end of the evaluation period (***May 13th, 2005***).

- The site agrees to be represented at the 2-day Machine Translation Evaluation workshop to be held in the Baltimore/Washington D.C. area during ***mid-June, 2005***, *(exact dates to be determined)* and to openly discuss the system(s) evaluated.

- The site understands that, although the evaluation is open to all wishing to participate, results are only discussed within the group of registered participants and representatives of supporting government agencies.

- The evaluation data (both source and reference data) is protected and cannot be redistributed.

- The site agrees to not publicly compare its results with the results of other participants. Sites are free to do what they wish with their own results, but may neither redistribute nor publish results from another site without that site's explicit permission.

NIST serves to coordinate the Machine Translation evaluations. These tests are designed for local implementation by each participant. Only their results are returned to NIST for scoring. The reported results are not to be construed, or represented, as endorsement of any participant's system, or as official findings on the part of NIST or the U.S. Government.
